Russia invades Ukraine on multiple fronts

Today's businesses face a perfect storm.

- "Contact volumes are spiralling beyond our ability to control them" - Censuswide
- Employees are feeling the strain, 60% of Contact Centres are running at attrition rates of 50%+
- Your stakeholders are challenging you reduce cost, do **more with less.... 25% less**

#1

**Most customers don't want to
talk to you....**

No, they really don't.

At least not until they *really* need you....

#2

Technology is not a magic wand.

Hope is not a
strategy.....

#3

Automation & Bots aren't going to replace your agent workforce

But they can make them
happier, higher performing
and more effective in their
roles.

The background of the image is a reproduction of Michelangelo's famous fresco, 'The Creation of Adam'. It depicts the hand of God on the right, reaching towards the hand of Adam on the left, which is lying down. The two hands are just inches apart, creating a sense of tension and divine spark. Overlaid on this image are four white speech bubbles containing text related to customer service issues.
